

Foundations

GLOBAL*Contract*

Built from the ground up.

The Foundations collection draws inspiration from a contemporary minimalist aesthetic, the paring down to the essential structure and surface, a workplace furniture collection that reveals the simple yet refined juxtaposition of horizontal and vertical planar elements.

Designed by Christopher Wright, Figure3

A contemporary design vocabulary for today's workplace.

With a light and minimal appearance, Foundations is built on a scalable design platform, able to suit any workspace. The base structure increases leg room, and enables all four edges to be completely utilized.

Enhance and enable the art of collaboration.

Choose the technology solution that is right for you. Select from a full range of preconfigured power monument inserts or the built in technology trough that offers a virtually limitless configuration opportunities. Depending on the size of the table, the trough can accommodate up to eight individual technology plates. Each consisting of four slots configured with 2 power duplexes and 2 telecom plates or 4 telecom plates. Telecom plates come in 25 standard configurations or can be customized to meet your specific needs.

Bold yet balanced – elegant yet efficient...

Simple lines, essential forms and rich materials.

No longer just a formal destination, meeting and conference rooms are multipurpose spaces for group work and collaboration. Spaces that facilitate brainstorming, creativity and innovation, a place where ideas are shared and decisions are made.

An integration of technology in both form and function.

Details

THE ROBUST UNDERSTRUCTURE FEATURES A SOLID STEEL PLATFORM BASE WITH A CUT OUT BELOW THE COLUMN FOR FLOOR MONUMENT ACCESS. EACH COLUMN HAS A 4" RANGE OF HEIGHT ADJUSTMENT FOR LONG RUNS AND A HOLLOW CAVITY FOR WIRE MANAGEMENT. RIGID METAL STRUTS SUPPORT THE FULL LENGTH OF THE TABLE AND ELIMINATE THE NEED FOR A MIDDLE SUPPORTING BASE UP TO 168" IN LENGTH.

Sustainable solutions.

Global Contract is committed to the concept of sustainable development – development that meets the needs of the present without compromising the ability of future generations to meet their own needs. We pursue sustainability because it is the right thing to do, and we believe sustainable development can play a central role in addressing the economic, societal, and environmental elements essential to the future.
