

ENVIRONMENTAL CHOICE™ PROGRAM

ENVIRONMENTAL FACT SHEET

TerraChoice
Environmental Services Inc.

ECOLOGO

- Canada's Environmental Choice Program provides market incentive to manufacturers and suppliers of environmentally preferred products and services, and thereby helps consumers identify products and services that are less harmful to the environment.
- EcoLogo Certification is internationally renowned because of the stringent certification process.
- EcoLogo Certification is obtained by meeting strict criteria against which products and services are assessed. This criteria includes:
 - Improved energy efficiency
 - Reduction of hazardous products and/or by-products
 - Use of recycled materials
 - Applicable industry safety, quality and performance standards (CGSB, ANSI/BIFMA)
 - Water consumption
 - Air pollution
 - Materials processing and manufacturing
 - Noise
 - Life cycle analysis
 - Product disposal
 - Packaging protocols
- Global Contract continues on-going conformance to the following products:
 - Boulevard Panel Systems
 - Filing & Storage
 - Evolve Panel Systems
 - Viceversa products
 - Licence Casegoods
 - Global Contract Seating
 - DOC-IT

Protecting the environment for future generations...
